You should consider the Future Safe Product Disclosure Statement and whether Future Safe is right for you before making a decision to invest or making an investment and protection election at your anniversary date.

Caps and Fixed Rate

The initial Cap for each market-linked investment option and the Fixed Rate is set at the policy commencement date and will remain at that level until the policy anniversary date. The Cap and Fixed Rate that applies at the policy commencement date and each policy anniversary date is the Cap and Fixed Rate effective at that time.

On each policy anniversary date, we will reset the Caps and the Fixed Rate for the next year. We reserve the right to change the Caps and Fixed Rate offered at any time.

Retained yield is the amount we have used from the underlying investment return to cover expenses and profit. It has the effect of reducing the Caps and Fixed Rate we are able to offer. It is not deducted from your account.

The Caps and Floors and return on the Fixed Rate are expressed before the annual product fee and any applicable taxes, but after the retained yield has been taken into account.
